- Rustproof
- Spark proof
- UV protection - light stabilised coloured master batch
- Dielectric constant - 3.6
- Non-magnetic

Ensuring that each employee has a unique padlock key is a cornerstone of any robust lockout programme. It guarantees that only one person can open each padlock ensuring everyone's safety.

The Sentinel lock control programme from Reece Safety guarantees your site will be free of duplicate locks both now and into the future. Being safe couldn't be easier, all padlocks provided can be logged in our unique Sentinel registration system, all brass padlocks are recorded as standard. Any repeat orders are checked against this database and new locks will be provided with new numbers to avoid duplication. What's more this service is completely free of charge and can be provided at either plant or company level, incorporating multiple sites. Please request when placing your order
